

DATSUN GO+

GO FURTHER WITH DATSUN GO+

GO FOR SPACE

The Datsun GO+ is packed with all the best features of the Datsun GO, and we've also added a few eye-catching new ones. Its elongated body shape makes it ultra spacious, meaning you'll never have to choose between comfortable seating or a large boot. The design aesthetic is distinctive and modern, reinforced by a sleek, dynamic silhouette and strong shoulder line. The overall impression is one of standout style.

Make a statement wherever you travel.

DATSUN GO+ LUX NOW AVAILABLE WITH CVT

CVT is a continuous variable transmission with no gears. A belt drives power to the wheels giving you precise and optimal power as you accelerate, slow down or brake. So whether you're stuck in traffic or on the open road, you have exactly the right power instantly and automatically. This precision also gives you the best fuel-efficiency, ultimately saving you money.

1. Light your upward path with distinctive headlamps

The Datsun GO+ sports iconic headlamps to brilliantly mark your arrival. They're tough enough to handle whatever South Africa's roads can throw at you. Daytime running lamps keep you visible all day long. (Available on selected models.)

2. Imposing front fenders

The front redesign of the Datsun GO+ keeps in step with modern trends and boasts bold styling cues that attract the right attention.

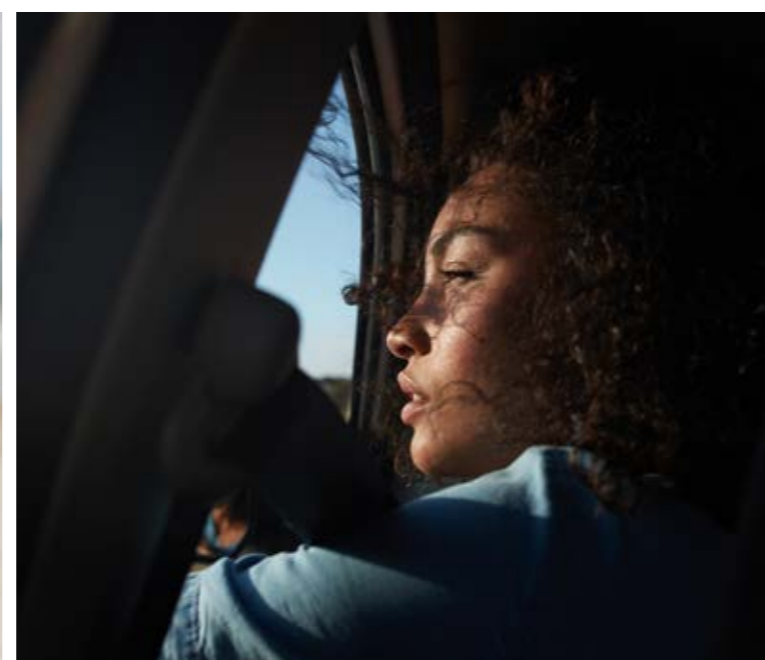

3. City-chic styling

With the right mix of strong, aggressive lines and seductive curves, the GO+ makes a fashion statement every time it hits the road.

4. The stylish D-cut grille

Announce your arrival in style with the trendy D-cut grille of the Datsun GO+. The Datsun GO+ makes sure you and your car get noticed with its sporty honeycomb structure design.

There's a lot going on in your life, and your car should help you make things happen.

As a car that's made to be as flexible as your needs, the Datsun GO+ offers a 5+2 seating option that also doubles up as extra space whenever you need it. Now you can go ahead and live your life your way: the Datsun GO+ will surely make itself fit.

**THE DATSUN GO+
IT KNOWS NO COMPROMISE**

GO BIG ON SPACE

Warning

Do not drive with the second-row seat in tipped-up or folded-down position.

Never allow anyone to ride in the second-row seat when the seat belts have been taken off the seat.

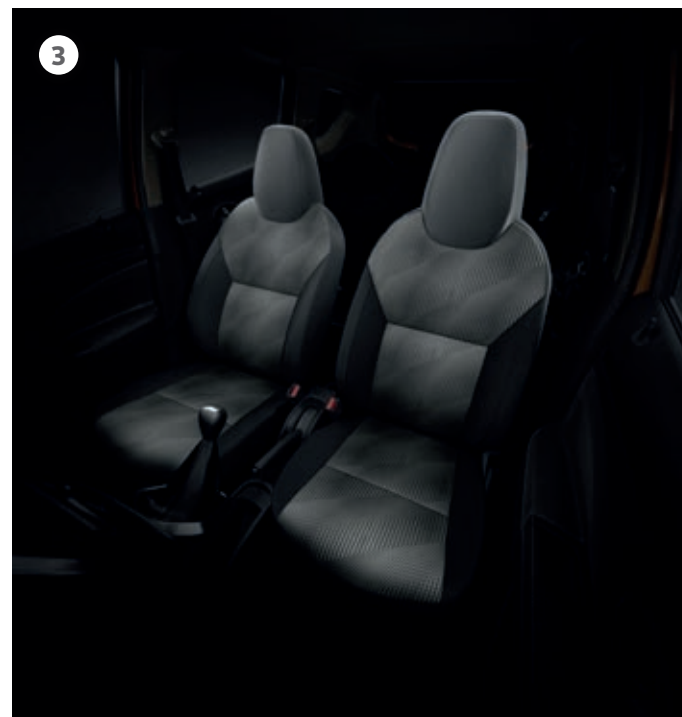

Insert the centre seat belt and all buckles through the gap between the cushion and the seat back, while ensuring the seat back is in the folded condition.

Be careful not to allow the second-row seat to pinch or hit any part of your body or other people when operating the second-row seat.

For more detail on safety, please refer to the Owner's Manual.

GO FOR MORE OF EVERYTHING

Datsun GO+ makes the all-round great car of your dreams a reality. With impressive acceleration and fuel-efficiency, a spacious interior for family and friends, and plenty of room in the boot too, it's designed to suit any lifestyle.

1. One size fits all

The Datsun GO+ comes with a flexible third row, ample headroom and spacious interiors. Yet it's compact enough to fit into tight parking spaces. It feels great to be able to stretch your legs without stretching your pocket.

2. Enough space for your ever-changing needs

The Datsun GO+ comes with 347ℓ of boot space when rear seats are folded.

3. Every seat feels like the best seat

Enjoy a sense of premium comfort wherever you sit: every seat provides an exceptional personal space.

4. Ergonomic seating that's got your back

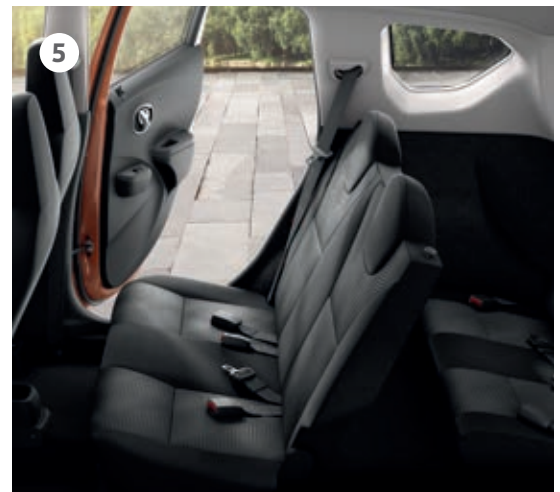

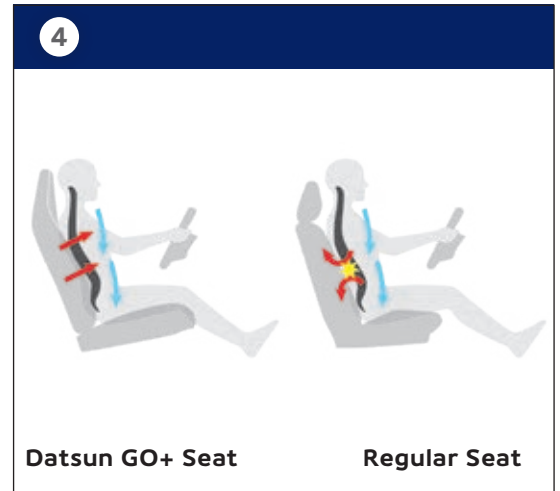

Be as refreshed when you step out of your car as when you stepped into it. The Datsun GO+ has spinal support seats that adjust to support a neutral posture. This reduces pressure, optimises circulation, and reduces fatigue from the pelvis all the way to the chest.

5. Surprisingly spacious with updated rear safety belts

Everyone gets to stretch out in the Datsun GO+. Front passengers enjoy extensive head and shoulder room, while rear passengers feel like they're in a luxury sedan. Updated pretensioned rear seat belts make each adventure even more comfortable.

6. Individually adjustable front seats

Individually adjustable front seats for the driver and the front seat passenger provide total comfort no matter how long the drive may be.

1. Android Auto/Apple CarPlay

Control your world with Android Auto/Apple CarPlay. It gives you access to everything on your smartphone in your car, including navigation, your music, USB charging and hands-free calling.

2. Passenger-side storage

There are plenty of spacious areas in the cockpit to store your belongings.

3. Door pockets

Extra space in the door trim can hold bottles, keys and other small items.

GO IN STYLE – INTERIORS THAT ARE THE ENVY OF OTHER HATCHBACKS

Inside the Datsun GO+, elegant simplicity and clean lines are key. The emphasis has been placed on thoughtful details that reflect quality. The dynamic dipping line of the dash is inspired by a bird's wing and is accented with just the right number of silver finishings.

The gear shift is placed on the instrument panel for easy reach.

It all adds to an interior of a vehicle you won't want to get out of.

4. Surrounded by air

In the Datsun GO+, even the air-conditioning vents are special. The circular outlets let you pinpoint exactly where you want the air to flow. You can even close them to force more air out of other vents. Also, the upper dash vents are perfectly placed to ventilate the rear seats, truly making the Datsun GO+ a cool car to drive.

5. Blue-lit speedometer with white lettering

Provides enhanced legibility to give you peace of mind and complete control.

6. Leather-feel grain-patterned dashboard

Interior elements feature a leather-feel, grain finish. It's as pleasing to the touch as it is to the eye.

GO SET THE PACE

From bonnet to boot, the Datsun GO+ is packed with modern technologies. With its reliable 1.2ℓ engine, advanced suspension system and front-ventilated disc brakes, the Datsun GO+ delivers impressive performance that promises to exhilarate. And with features such as the intuitive windscreen-wiping system, and follow-me-home headlamps, your drive is as safe as it is fun.

Datsun GO+ gets an impressive 20.6 kmpℓ – competitive in its segment, even though Datsun GO+ is bigger inside and out.

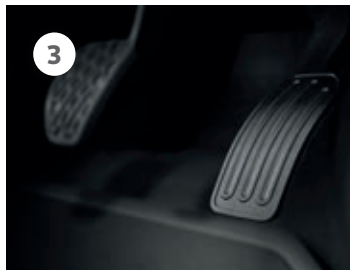

1. Space for power

The largest-in-class 1.2ℓ engine, with perfect circle-bore machining technology, delivers segment-leading power and torque. Combined with a counterbalance system, you'll enjoy minimal noise and reduced vibration for an exceptionally quiet ride. It's great performance that's also affordable.

2. Advanced suspension system for a smooth drive

The Datsun GO+ is engineered to respond quickly and take the bumps in its stride. The front suspension with a double-pivot front arm and high-response damper provide greater agility, all while quickly absorbing irregularities on the road. You'll be surprised at how in control of your drive you'll feel.

3. Effortlessly make your way ahead

Step on the accelerator and notice how smoothly it responds. That's because it's controlled electronically – not by a cable – which also means less maintenance and lower emissions. Now available with automatic CVT.

4. Stay safe with ABS stopping power

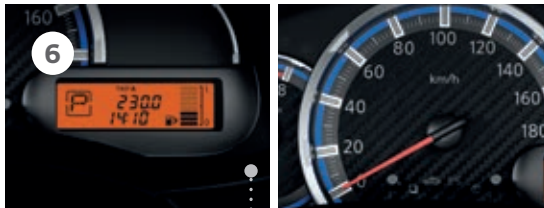

Should you need to bring your joyride to a sudden stop, the Datsun GO+ features ventilated disc brakes with ABS, making stopping even easier. Now with vehicle dynamic control.

5

5. Rear parking sensors

Experience the ease in parking with sensors to guide you through the toughest of spots.

6

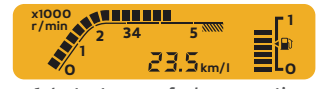

6. Know what your Datsun GO+ is up to

Calling it the smart meter is an understatement! It sports a digital tachometer, complete with a gear shift guide to help you conserve fuel through optimal gear changes. The drive computer displays fuel consumption, including the average and the distance to empty.

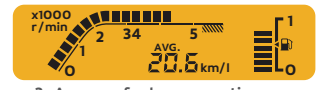

a. Digital tachometer

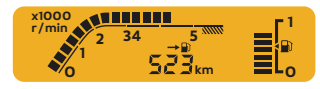

b. Drive computer

1. Instantaneous fuel consumption

2. Average fuel consumption

3. Distance to empty

7

7. Electric power steering keeps you in control

Everyone has their preference for how much steering assistance they prefer. In the Datsun GO+, you can adjust the level of power assistance according to how fast you're driving. Get more assistance for easy cornering at lower speeds, or ease up for a smooth drive on the highway. In the Datsun GO+, control is always in your hands.

8

8. Dual front air bags

The new Datsun GO+ is equipped with dual-front air bags so you always feel safe.

A CAR THAT ADAPTS TO ITS ENVIRONMENT

Enjoy extra flexibility with the third-row seat in the Datsun GO+. It can seat two or fold up to convert into extra boot space. This means you can quickly go from two additional seats to 347ℓ of boot space with a single fold.
