INTRODUCING THE NEW TUCSON

Make life beautiful in the new 2018 Hyundai Tucson facelift. With its chic urban design, combining both beauty and advanced technology, it's like no other SUV in its class. From its refined, flowing exterior to its intuitively designed interior, the new model has been engineered to impress drivers and passengers alike. The Tucson's bold presence ensures you won't find anything else like it on the road.

PERFORMANCE WITHOUT COMPROMISE

Performance is ever at the forefront when it comes to Hyundai and design. This is even more evident in the Tucson range (including NU 2.0 MPI, 1.6 TGD and R2.0 CRDi engines). The NU 2.0 MPI engine offers 115kW at 6 200rpm and 196Nm at 4 000rpm. Delivering impressive throttle response and performance, the 1.6 TGD engine carries 130kW at 5 500rpm and 265Nm at 4 500rpm. The R2.0 CRDi engine delivers a racy 131kW at 4 000rpm and 400Nm at 2 750rpm. Get on the open road, because with Hyundai's 7-year, 200 000km manufacturer's warranty, experiencing life in the new Tucson has never been more liberating.

FLUIDIC SCULPTURE 2.0

The new facelift's athletic shape and aerodynamic design delivers more dynamic performance and cutting-edge style at every turn.

CLIMATE CONTROL

With the Tucson's full-auto temperature control system*, you're in control, as it allows you to effortlessly maintain your preferred pre-set temperatures. Plus, the rear air vents** cool the passengers seated in the back, keeping the temperature inside perfectly comfortable for everybody. The sophisticated clean-air system also generates cluster ions that purify and deodorise the air for a healthier and more pleasant ride.

*Executive and Elite models only.

**Elite models only.

5-STAR EURO NCAP RATING

With its impressive 5-star EURO NCAP rating, the new Tucson raises the bar when it comes to safety. It's equipped with plenty of safety features, including six airbags that provide excellent front and side protection; an Electronic Stability Program (ESP)*, an Anti-lock Brake system (ABS); and Electronic Brake-force Distribution (EBD) that gives the driver complete steering control and ensures stability when it's needed most. It's clear that in the Tucson, safety comes first.

*Executive and Elite models only.

BLIND SPOT DETECTION*

The Tucson's dedication to safety is further enhanced with Blind Spot Detection (BSD). This system displays a visual warning in the side mirrors when another vehicle approaches the rear blind spot, while Lane Change Assist increases the effectiveness of the BSD by giving an audible warning when the indicator is used. The rear cross-traffic alert adds further value, because it warns drivers of approaching cross-traffic.

*Executive and Elite models only.

APPLE CARPLAY

Apple Carplay takes integration to the next level. Now you can get directions, make calls, send and receive messages and enjoy your favourite tracks - all on your central display. Simply sync your iPhone with your on-board display for seamless entertainment, communication and navigation.
