# Grand i10

## The new kid on the block

The arrival of the all-new Hyundai Grand i10 will shatter everything you thought you knew about a compact hatch. This fresh and dynamic city car is modern enough to give a clean overall look, but interesting enough to live up to Hyundai's continuous commitment to evolve a car fit for the urban lifestyle.

## Luxury Comes In Grand Packages

The Grand i10 drives true value for money with premium interior features and exceptional use of space. Interior noise has been reduced through a redesigned engine mount system, a quieter fuel pump, and improved body rigidity - while advanced technology like intuitive steering wheel audio controls, an audio system with Bluetooth integration and handy USB/AUX ports will ensure a driving experience beyond expectation.

## 21st Century Life

Hyundai uses every tool in the box to deliver a steady 5.9ℓ/100km on the Manual and 6.9ℓ/100km on the Automatic. This technology is assisted by the use of sophisticated anti-friction coatings, as well as advanced fuel delivery systems. Equipped with passive and active safety features like ABS with EBD technology and airbags, the Grand i10 limits unnecessary skidding when sudden stops are required, even on wet roads.

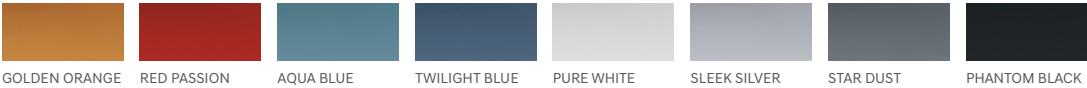

## When Practical Becomes Attractive

With Hyundai's fluidic design principles at its heart, the Grand i10 demonstrates a perfect balance between practical use and eye-catching aesthetics. When it comes to space, it offers a comfortable 256ℓ area that increases to over 1,202ℓ when the rear seats are folded down. In addition, the front fog lamps add a simple and slick finish to the front of the car, while the smart side indicator mirrors (Fluid Model) let everyone know where you're going.

Specifications
