COUPÉ OR CONVERTIBLE?

IT’S A TOUGH ONE

 BUILD YOUR OWN

There is no wrong answer when choosing between coupé or convertible. Each has its own unique character, yet both offer exhilarating performance, state-of-the-art handling, and the freedom of a driver-focused experience.

VEHICLES SHOWN: F-TYPE R COUPÉ AND F-TYPE R-DYNAMIC CONVERTIBLE IN SORRENTO YELLOW WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

FEATURES AND THEIR AVAILABILITY MAY DIFFER BY VEHICLE SPECIFICATION AND MARKET. PLEASE REFER TO THE SPECIFICATION AND PRICE GUIDE FOR DETAILS OR CONTACT YOUR LOCAL JAGUAR RETAILER FOR MORE INFORMATION.

PREPARE FOR GOOSEBUMPS

F-TYPE is Jaguar design in its most beautiful form – lean, elegant and athletic from any angle. It's sleek and imposing, featuring a bold new front grille and a long, muscular clamshell bonnet with signature power bulge and air vents.

VISIONS OF ELEGANCE

Signature 'J' blade LED Daytime Running Lights give the F-TYPE a striking on-road presence, complementing the car's sleek and sculpted style and asserting its powerful stance. One of the most noticeable features of the headlights is the monogram detailing in the headlight cluster design.

PRACTICALITY

YOUR F-TYPE

When the engine shuts off, F-TYPE is far from lifeless. Its new muscular, elongated bonnet sweeps back over the engine, with a pair of air vents hinting at the power that lies below. Additional fender vents feature the iconic leaper, staying true to our principles of making performance-led design as eye-catching as possible.

YOUR F-TYPE

There will be certain moments when you can't help but stand back and admire F-TYPE's smooth, streamlined contours. Sitting low on its wide rear haunches, it sweeps elegantly towards the exhausts that sit surrounded in an exquisitely crafted rear valance. This is one silhouette that will leave a lasting impression.

YOUR F-TYPE

A close-up, artistic shot of a Jaguar F-Type's LED tail light. The light is illuminated with a vibrant red glow, and its intricate, wavy design is highlighted by a blue light source from the side. The background is a deep, dark blue, creating a high-contrast, dramatic effect. The monogram pattern, a signature Jaguar design element, is visible within the light's structure.

CHARACTER AND BEAUTY FROM EVERY POINT OF VIEW

The red glow of the LED tail light is sufficient to discourage other drivers from getting too near. But on the off chance you get to see this stunning tail light up close, there's something enticing about the sheer beauty and attention to detail of the monogram pattern that is so unmistakably Jaguar.

“LUXURIOUS CRAFTSMANSHIP AND NEW HARMONISING DETAILS”

“When you get inside a Jaguar, it must excite your senses while standing still. F-TYPE is the most beautiful British sports car – freshened both inside and out. The enhanced interior embraces new digital interaction for performance and focus, complementing F-TYPE’s already tactile and engaging controls. New harmonising details also amplify that sense of occasion, and an emotional connection that our customers will never forget.”

ALISTER WHELAN

INTERIOR DESIGN CREATIVE DIRECTOR

LUXURY WHEREVER YOU LOOK

The exclusivity of F-TYPE's crafted, clutter-free interior is matched by only one thing – its comfort. Even the tiniest details intensify the sumptuous feel of the car, with fully adjustable seating adapting to any preference. So when you put F-TYPE through its paces, you're not being put through yours.

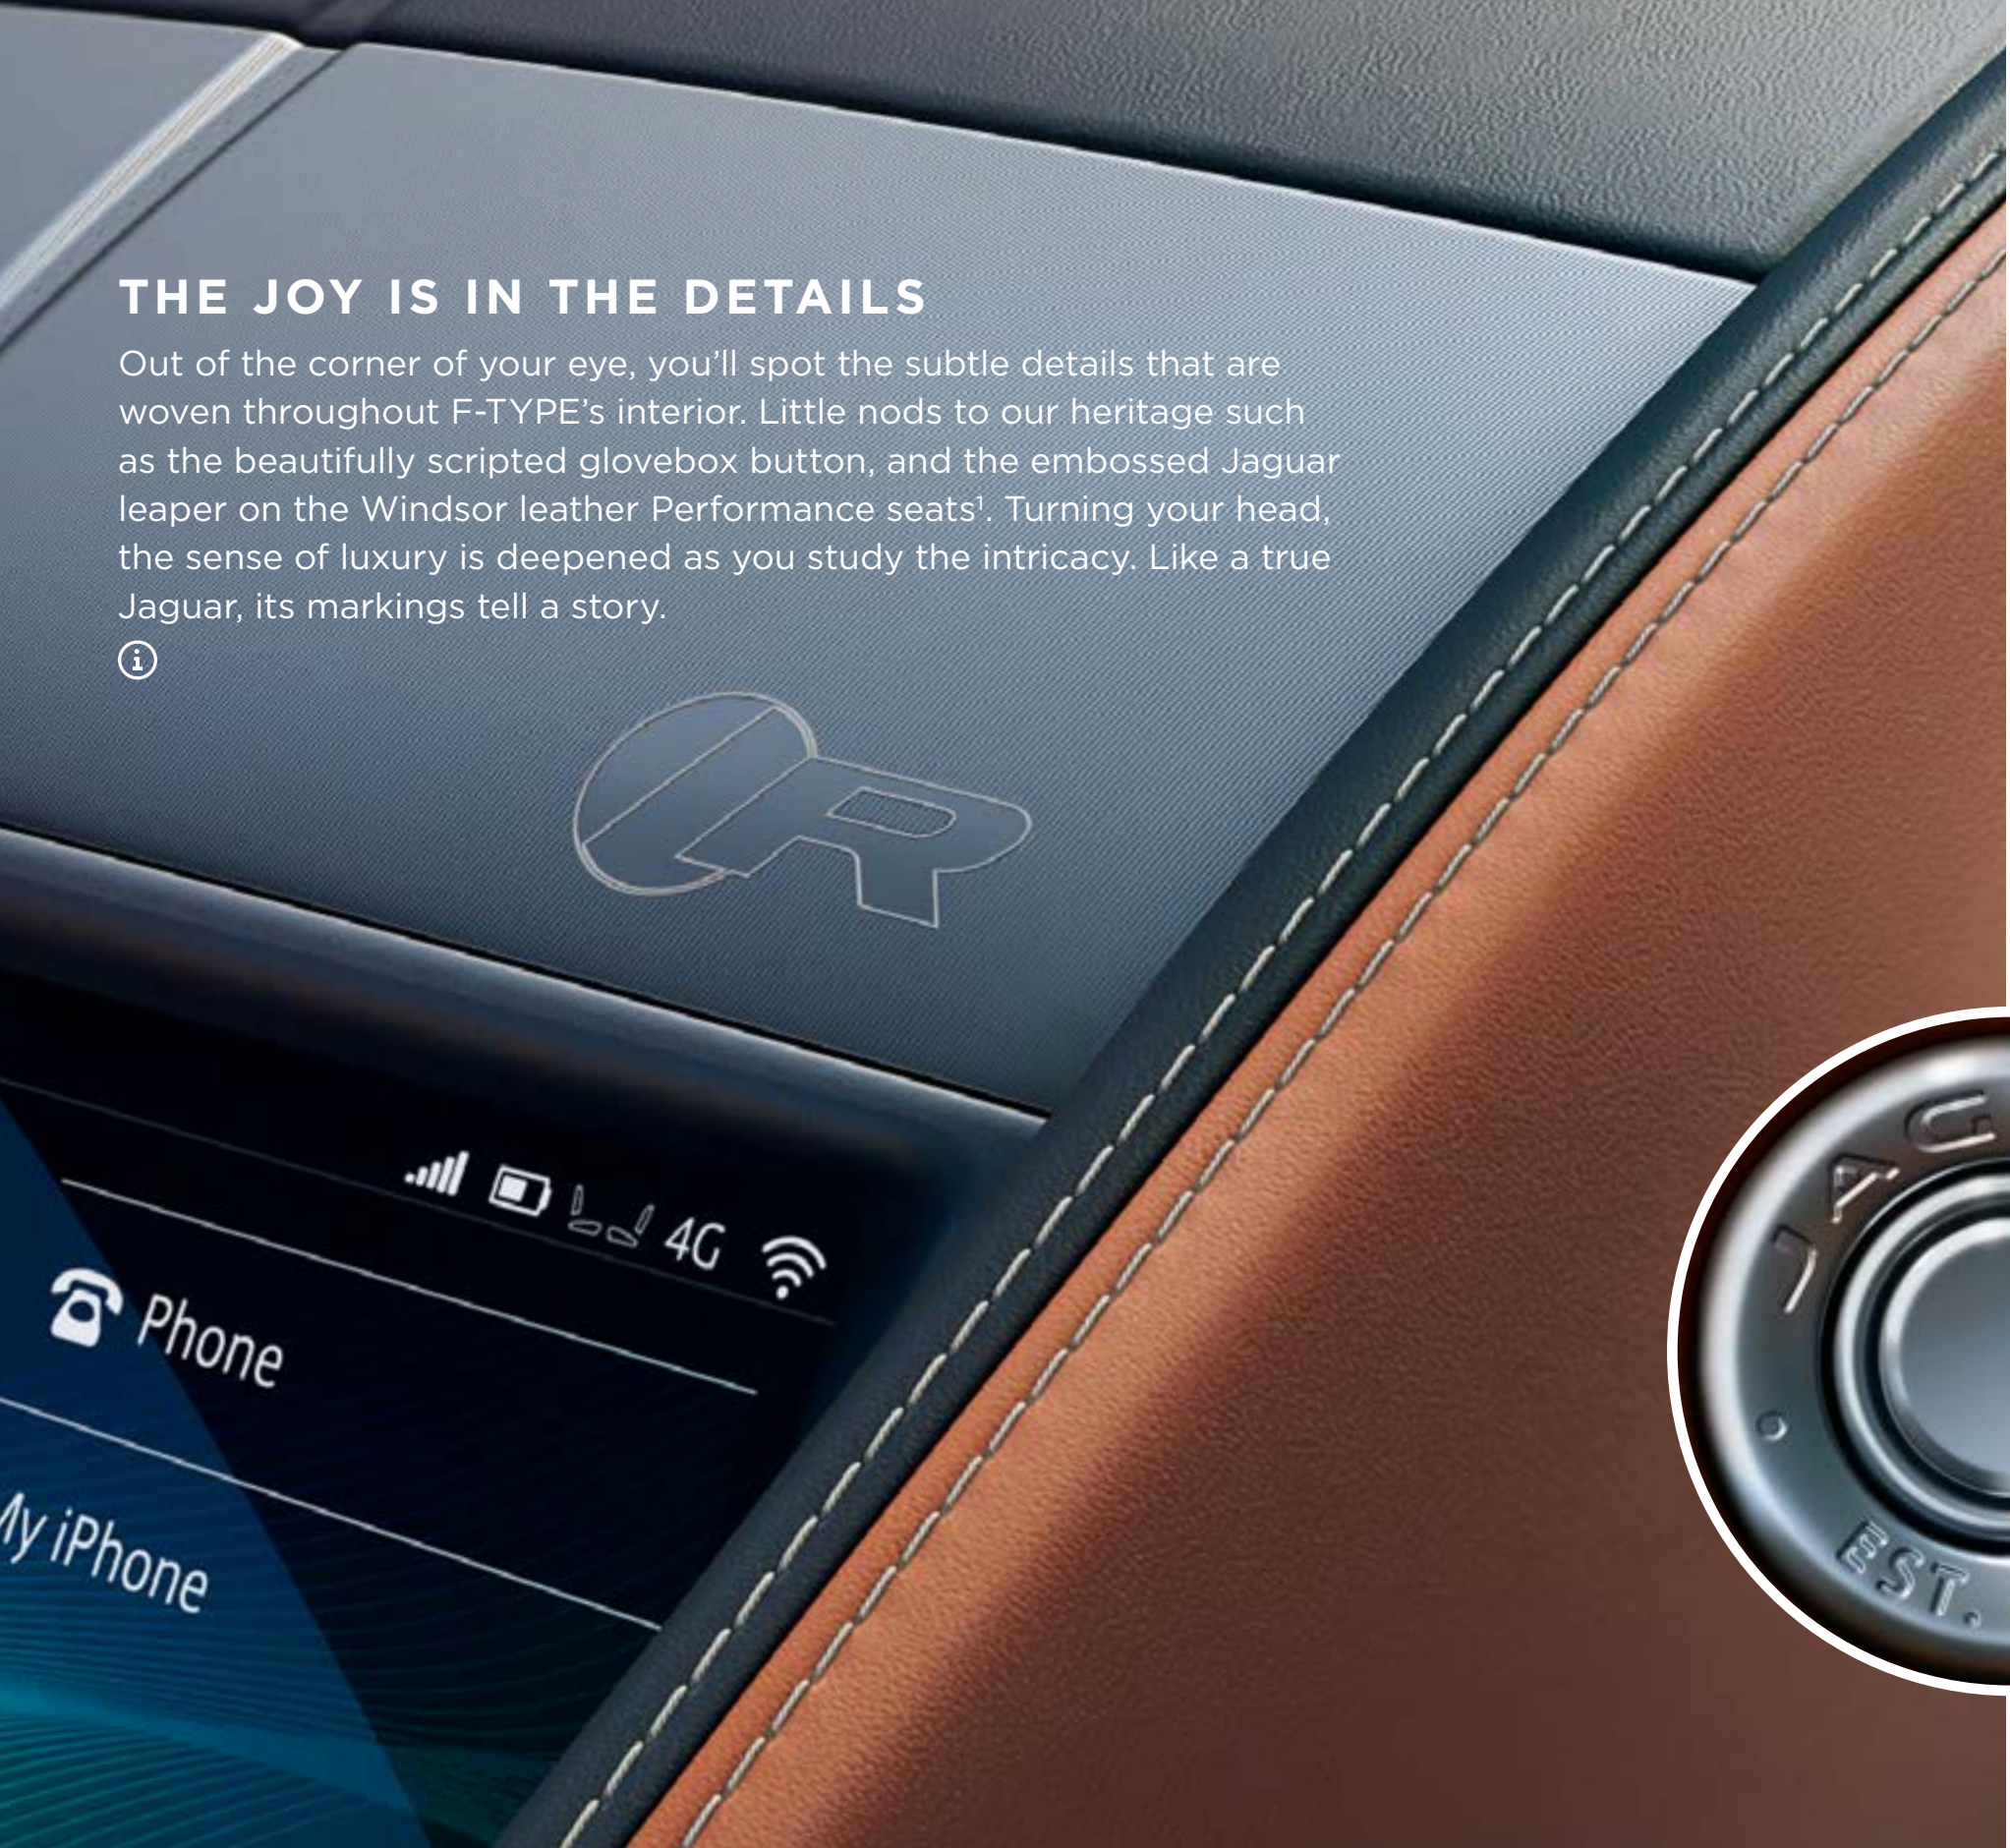

VEHICLE SHOWN: F-TYPE R FEATURING TAN WINDSOR LEATHER PERFORMANCE SEATS AND OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

Inspired by fighter jet ergonomics, controls are placed where they are intuitively accessible. Instruments are clear and simple. Whilst additional aeronautical inspiration can be found in the joystick-shaped SportShift Selector.

THE JOY IS IN THE DETAILS

Out of the corner of your eye, you'll spot the subtle details that are woven throughout F-TYPE's interior. Little nods to our heritage such as the beautifully scripted glovebox button, and the embossed Jaguar leaper on the Windsor leather Performance seats¹. Turning your head, the sense of luxury is deepened as you study the intricacy. Like a true Jaguar, its markings tell a story.

HEART, MEET MOUTH

F-TYPE is powered by the most thrilling of Jaguar's petrol engines, all of which feature innovative technologies for improved fuel consumption and CO₂ emissions, without compromising on performance. The base engine is a 2.0 litre Turbocharged, delivering 221kW; then there's a 3.0 litre Supercharged V6 with 280kW of output and finally, at the top of the range, is a 5.0 litre Supercharged V8 with 423kW. The more powerful engine can take you from 0-100km/h in a hair-raising 3.7 seconds.

YOUR F-TYPE

SOUNDS EVERY BIT AS GORGEOUS AS IT LOOKS

The moment you push the engine's Start button on the dashboard, F-TYPE erupts into life, with the Active Sports Exhaust delivering a satisfyingly sporty growl. You can then decide whether to slip away quietly, or to hit the road more vigorously. If it's the latter, simply press the optional exhaust button on the centre console to open the electronic exhaust valves wider, changing the volume from astonishing to simply breathtaking.

R-branded exhaust tips only available on R.

YOUR F-TYPE

BE MOVED

BE VERY MOVED

There are three drive modes on an F-TYPE: Sport, Dynamic and Rain, Ice, Snow. Switching to Dynamic Mode stiffens the suspension², turns the exhaust note up and quickens the throttle response. Rain, Ice, Snow Mode is ideal for harsh weather conditions, curbing the power delivery for greater control. Whichever you choose, one thing's certain – from the minute you get behind the wheel, your driving experience will be totally engrossing.

YOUR F-TYPE

**IT DOESN'T JUST GO LIKE THE WIND.
IT WAS SHAPED BY IT**

Slicing through the atmosphere, airflow streams over F-TYPE in swift, engineered lines. The rear spoiler deploys as your speed climbs, reducing lift and increasing stability even further.

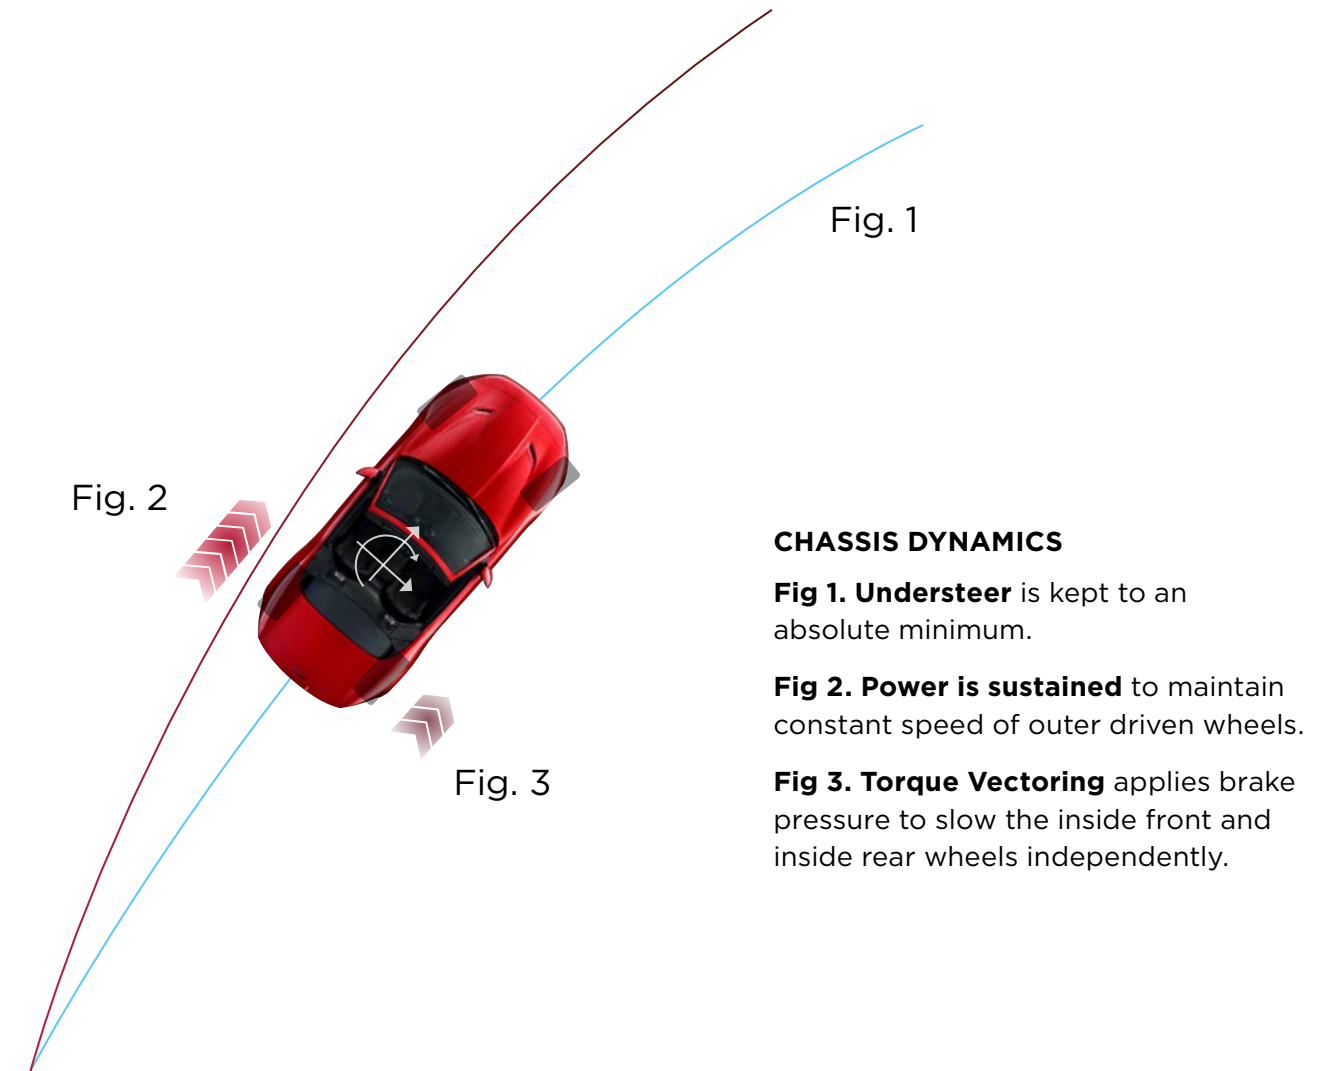

VEHICLE SHOWN: F-TYPE R-DYNAMIC CONVERTIBLE IN FIRENZE RED WITH BLACK EXTERIOR PACK AND OTHER OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

AHEAD OF THE CURVE

An Electronic Active Differential² transfers torque for optimal grip, so you can take the tightest corners effortlessly. Whilst Adaptive Dynamics² rapidly analyses steering input, maintaining the stiffness of each damper. Together, they produce the perfect balance of excitement and control. Should you have specific tweaks in mind, Configurable Dynamics² allows you to personalise several characteristics, including throttle sensitivity, gearbox shift points, steering weighting, and damper stiffness. Just another way of making our F-TYPE, your F-TYPE.

DYNAMICS THAT TURN A TRIP INTO AN ADVENTURE

The familiar rumble of F-TYPE sounds as you downshift into the bend. When turning, the Torque Vectoring by Braking system is activated, delivering independent braking to each of the wheels to hold you firmly on course, even during the most testing of hairpins.

All Wheel Drive builds on the exhilarating characteristics of Rear Wheel Drive, so in normal conditions torque is distributed to the rear wheels, delivering true Jaguar agility. In more challenging environments such as snow, torque can be balanced between front and rear wheels to maximise traction. And with Intelligent Driveline Dynamics, F-TYPE's torque is distributed to supply extra traction before it's called for. In extreme conditions, torque can be distributed to the front wheels – where it's needed most.

ALL-WHEEL

ALL WEATHER

THE PERFECT BODY

You can't help but wonder what's underneath. Substance beneath the style. Using an aluminium³ alloy inclusive of state-of-the-art materials, F-TYPE's body is phenomenally strong, with a rigidity that is the perfect complement to its range of high-performance engines. They couple up to produce exceptional power-to-weight and torque-to-weight ratios – figures that are synonymous with a thoroughbred sports car.

FEEL THE MUSIC WITH MERIDIAN™

Thanks to Meridian⁷ audio systems, you can now enjoy music levels to match your Jaguar's exhilarating performance.

Meridian's approach to in-car audio is all about managing the sound stage; intensifying the levels of depth, clarity and realism of the music, by using a combination of sophisticated acoustic technology and strategically positioned speakers.

Wherever you sit in the car, you'll get the same concert-quality sound. Each strike of the piano, every guitar pick, horn blast, chorus and melody reveals itself with precision and texture, just as the artist intended. It's intimate, dramatic and atmospheric. And it's the most wonderful feeling.

EXPLORE MERIDIAN

8 SPEAKERS 2 SUBWOOFERS 380W AMPLIFIER POWER

1. MERIDIAN SOUND SYSTEM

Brings detail and clarity to everyone in the car with strategically arranged speakers and a dual-channel subwoofer to deliver a full, sophisticated sound.

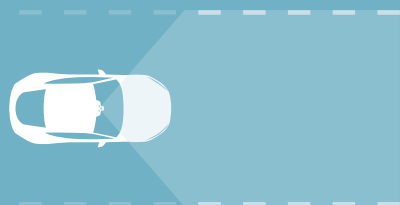

10 SPEAKERS 2 SUBWOOFERS 770W AMPLIFIER POWER

2. MERIDIAN SURROUND SOUND SYSTEM

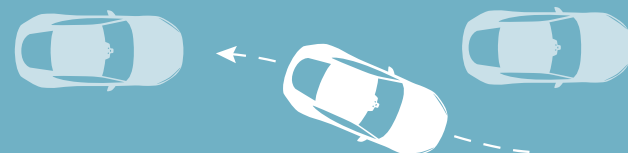

Enjoy an engaging, authentic concert hall experience as you're enveloped in the fullness and clarity of side, front and rear speakers, seamlessly integrated using Trifield™ technology.

IT'S WAY AHEAD OF YOU

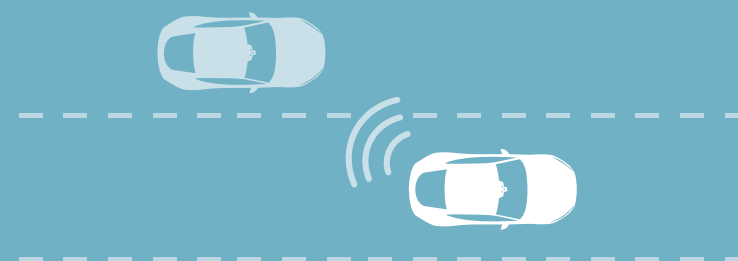

F-TYPE is undeniably a driver's car. So, to help you focus on the sheer pleasure of driving it, we've built in some advanced safety systems designed to help avoid accidents, such as Driver Condition Monitor. And to help relieve you from the stresses and strains of modern motoring, there are features such as Rear Camera and Front and Rear Parking Aid, to make manoeuvring about town easier.

Lane Keep Assist detects when the vehicle is unintentionally drifting out of the lane, and applies corrective torque to the steering wheel, encouraging you to guide your vehicle back.

Park Assist (Optional) can help make parking easier by steering your vehicle into and out of a suitable space. After selecting either Drive or Reverse, you only have to control the vehicle's speed and braking. Graphics and notifications will guide you through the manoeuvres.

Blind Spot Assist Pack (Optional⁸) can help you prevent collisions. If another car is in your blind spot when you begin to change lanes, Blind Spot Assist detects the car and applies corrective torque to encourage you to guide your vehicle away from the approaching vehicle. **Rear Traffic Monitor** uses the same system to alert you, via the Touchscreen, of moving vehicles during reversing.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.
