

Go boldly
in the facelift Sorento.

Movement that inspires

The new facelift 7-seat Kia Sorento.

Venture off the beaten track in space-age comfort and sophisticated style.
Glide effortlessly through mountain passes, along tropical coastlines,
and beside winding rivers.

Every turn reveals a new story, each more exciting than the last.
Explore the unexpected, embrace the unknown.

With confident AWD performance and cutting-edge safety technology,
the Sorento is built for wherever your journey takes you.

Go your own way in the all-new Kia Sorento.

Set your own standards.

Break away from the everyday and take in the bold, confident design of the Kia Sorento. Its striking contours, distinctive wheel arch cladding, and body-colour door handles accented with satin chrome speak to refined sophistication. Sleek trim lines, sculpted side sills, and the unique daylight opening graphic create a commanding presence from every angle.

Blending on-road elegance with off-road capability and delivering it all with lower emissions - the Kia Sorento sets a new benchmark in modern SUV design.

Make an instant impression.

The Sorento's rear design is bold and unforgettable, showcasing advanced light technology with striking vertical LED tail lamps. A sporty rear skid plate, sleek garnish accents, and a seamlessly integrated rear wiper complete the look - creating a powerful, lasting impression as the Sorento pulls away.

Style from the inside.

Your Kia Sorento says as much about you inside as it does out. Black leather seats feature a black one-tone detail colour complemented by a black interior headlining.

*Model dependent

The image shows the interior of a vehicle, specifically the rear cargo area. The third row of seats is folded down, creating a flat surface. The second row of seats is visible in the background, and the front seats are also visible. The interior is dark-colored, and the windows show a view of the outside world.

Do your own thing.

Open wide and imagine the possibilities. Whether you're navigating the city or chasing adventure, the Sorento is built to adapt, with the versatility to suit every journey. Choose from five-, six-, or seven-seat configurations to match your lifestyle, with individually sliding second-row seats and one-touch remote-folding 60:40 split functionality (50:50 in the third row).

Passengers in every row enjoy generous space and comfort - including manual air conditioning in the third row to ensure everyone travels in comfort.

The Sorento is designed to work for you, and everyone you bring along for the ride.

Maximise your options

When your head says, “let’s push boundaries,” the Sorento responds, “let’s do it in style.”

Bold on the outside, refined on the inside—it offers the ultimate blend of comfort, space, and flexibility. Whether you’re chasing adventure or cruising through the everyday, the Sorento ensures you do it all with effortless sophistication.

2nd row folded fully flat

2nd row partially folded

3rd row folded fully flat and 2nd row partially folded

3rd row folded fully flat

3rd row partially folded

Flexible seating. Endless possibilities.

No matter what your day holds, or what you need to bring along, the Sorento is ready. With a range of seat split options and smart configurations, it adapts effortlessly to you, your passengers, and your plans.

Smart space, ready when you are.

Need more room in a hurry? The Sorento transforms effortlessly from a seven-seater to a spacious luggage hauler with up to 910 litres of boot capacity. Thanks to convenient one-touch remote folding for the second-row seats, accessible directly from the tailgate, reconfiguring your space is quick, easy, and seamless. Whether it’s passengers, gear, or a mix of both, the Sorento adapts to whatever your journey demands.

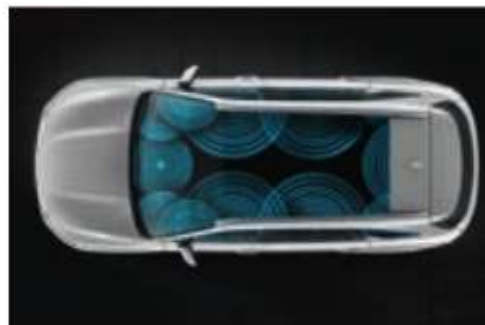

Always connected. Always in control.

Step inside the Kia Sorento and experience a suite of advanced infotainment and connectivity features, all designed to keep you informed, entertained, and in command, no matter where your journey takes you. entertainment technology designed to put you in complete control for whatever adventures lie ahead.

12.3" Touchscreen Infotainment System

Navigate your journey with ease using the sleek, frameless 12.3" touchscreen display. Featuring premium built-in navigation along with seamless smartphone integration via Android Auto™ and Apple CarPlay™, it keeps you effortlessly connected and in control.

Bose® premium surround sound system.

Elevate your in-car entertainment with the unparalleled sound quality of the Bose® premium surround sound system. With 12 strategically placed speakers and a powerful external amplifier, it transforms any audio source into an immersive surround sound experience.

*Bose® system available exclusively on SXL models.

*Bose only on SXL models.

Wireless smartphone charger.

Say goodbye to tangled cables. Simply place your phone on the charging pad at the front of the centre console, and it charges wirelessly, effortlessly and conveniently.

*This feature is available in SX + SXL models only.

USB Ports and Power for all.

Stay powered up, no matter where you're seated. Integrated USB charging ports in the first-row seatbacks serve both front and second-row passengers, while the cargo area features USB ports on each side for third-row occupants. Plus, the rear centre console offers an additional USB charging port and 12V socket—ideal for gaming and keeping devices charged on the go.

Blind-Spot Collision-Avoidance Assist (BCA).

Changing lanes is safer with Blind-Spot Collision-Avoidance Assist. The system detects vehicles in your blind spot and alerts you with warning symbols in the side mirror and on the head-up display. If you begin to change lanes while a car is detected, the Sorento automatically applies the brakes to prevent a collision. The warning symbols will flash, and an audible alert will sound to ensure your safety.

*Available on SX and SXL models only.

Blind-Spot View Monitor (BVM).

Enhance your visibility with the Blind-Spot View Monitor. Using side cameras, the system displays a live view of your blind spot directly in your instrument cluster when you signal left or right. Indicate left, and you'll see a rear view of the left side; indicate right, and the right-side view will appear, helping you navigate with confidence.

*This feature is available in SXL model only.

Rear Occupant Alert (ROA).

The Rear Occupant Alert helps keep everyone safe by reminding drivers to check the rear seats when exiting the vehicle. A display message in the instrument cluster prompts you to ensure no children or pets are left behind.

*This feature is available in SX + SXL models only.

Forward Collision-Avoidance Assist (FCA).

Using advanced camera and radar technology, the FCA system continuously monitors the road for potential collisions with vehicles, pedestrians, or cyclists. If it detects a risk, such as when turning at an intersection, the system will alert you with a warning on the instrument cluster. Should the risk remain, maximum braking power is automatically applied to help prevent a collision.

*This feature is available in SX + SXL models only.

Empowering Your Journey.

No matter the distance, rest assured that the Kia Sorento is always working to keep you and your passengers safe and secure on every trip.

Lane Keeping Assist (LKA).

At your side to keep you focused: a camera at the front of the car monitors lane markings, and if the driver moves out of the lane unintentionally, LKA alerts you and even steers you back to your lane.

*This feature is available in SX + SXL models only.

Lane Keeping Assist (LKA)

Designed to help you stay focused, Lane Keeping Assist uses a front-facing camera to monitor lane markings. If the system detects unintentional lane drift, it will alert you and gently steer you back into your lane for added safety.

*This feature is available in SX + SXL models only.

Drive with Passion.

Take the wheel and forge your own path with the Kia Sorento 2.2 CRDi diesel engine, available in both 2WD and AWD models for an exhilarating driving experience.

Drive with passion.

Go your own way with the Kia Sorento 2.2 CRDi diesel engine, available on both the 2WD and AWD models.

Drive Mode Select (DMS).

The new automatic transmission lets you tailor your driving experience with a choice of drive modes, adjusting the powertrain's response to your preferences. Whether you're seeking enhanced fuel economy or a boost in acceleration, the Sorento's diesel model offers four modes—Eco, Comfort, Sport, and Smart. Additionally, the Drive Mode Select system fine-tunes the weight of the rack-mounted power steering, offering either a more relaxed or a more responsive, engaging steering feel.

Terrain Mode Select (TMS).

The Terrain Mode Select system brings versatility and excitement to your drive, offering a seamless switch between Drive modes (Eco, Comfort, Sport, Smart) and Terrain modes (Snow, Mud, Sand). Available exclusively with AWD (All-Wheel Drive), TMS adapts to various conditions to enhance your performance.

- Snow Mode reduces wheel slip on icy or snowy roads, ensuring stability.
- Mud Mode delivers aggressive torque while limiting transmission upshifts, allowing the wheels to spin and maintain momentum in challenging mud conditions.
- Sand Mode optimizes torque distribution to each wheel, preventing them from digging in and helping you glide smoothly across sandy terrain.

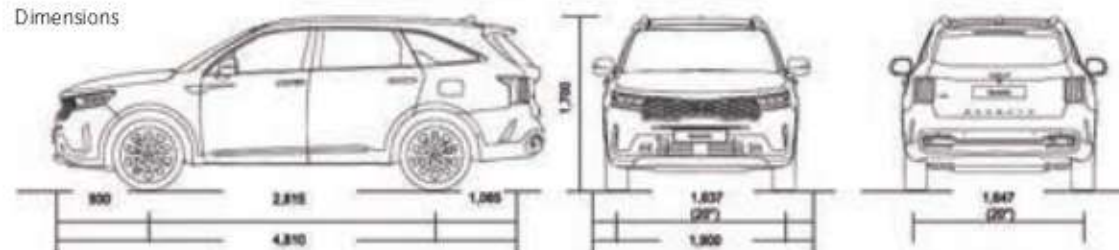

Rotary gear shift dial.

Conveniently located at the centre and within easy reach, the rotary gear shift dial features advanced shift-by-wire technology, ensuring smooth and effortless gear changes. For added peace of mind, the system automatically shifts into Park (P) if the driver forgets, enhancing safety and convenience.

Dual-clutch transmission (DCT).

The Sorento 2.2 CRDi features an eight-speed dual-clutch transmission, delivering lightning-fast, seamless gear shifts for a more dynamic and responsive driving experience.
