

The legend of the Thar has been in the making for more than seventy years, the adventurer's car of choice, Mahindra's original all-terrain, come-what-may jeep.

With its classic body and contemporary features, the Thar is tougher than you could imagine. Armed with the Borg Warner 4WD System that provides 2.48 crawl ratio in low-range, its traditionally high approach and departure angles (44° and 27° respectively) with a 15° ramp over angle, great overall clearance at 200mm, a new mechanical locking rear differential and auto locking hubs, you and your Thar are ready to render the impossible possible.

### **BUILT TO TAKE ON ANYTHING!**

Left: Approach and departure angles
(vehicle shown with optional alloy

Early Mahindra vehicles assembled in front of the Kandivali factory, Mumbai (Circa 1949).

### **COMFORT AND CONVENIENCE**

- O1 The Thar comes with a factory-fitted air conditioner and heater as standard, with multi-directional vents to keep you comfortable in any circumstances.
- O2 The front seats are wide and offer ample support to reduce strain when driving over long distances.

- 04 The floor-mounted centre console houses two cup holders.
- 05 The three-pod instrument cluster provides clear and easy to read information as you drive.

The extended wheel arches and toughened front and rear bumpers accentuate the Thar's rugged looks while protecting the bodywork from any damage. Clear lens headlamps provide powerful light over any terrain whilst the removable canvas canopy helps to immerse you in the natural world around you and experience the elements at close hand.

#### PRESENCE ON AND OFF-ROAD

It's not only about butch and brawn, though, as there is a factory fitted air conditioner and heater with multi-directional vents to keep you comfortable in any circumstances, wide front seats to reduce the strain of driving over long distances, and steering wheel and gear lever designed to fit your hands and positioned exactly as you need them.

Power steering makes manoeuvrability a breeze with a carlike turning circle of just 5.75m. The two-tone dashboard is attractive, whilst the three-pod instrument cluster provides all the information you need while you drive. There are even cup holders provided in the floor mounted centre console and a lockable glove compartment to keep your essentials safe from the wiles of nature.

# **TECHNOLOGY**

O1 - Speak to your dealer about the comprehensive range of accessories available to make your Thar really your own. These include off-road tyres, snorkel, winch, grille protector, front bumper and hard top roof.

O2 - The NEF TCI-CRDe 2.5I turbo-diesel engine provides a perfect balance of power and torque (78kW and 247Nm respectively).

O3 - O4 - The manual shift-on-the-fly 4WD with high and low ratio, along with the closely matched ratios on the main geerbox enable the driver to maintain headway under most conditions.

The Thar features the NEF TCI-CRDe 2.5I turbo-diesel engine, providing a perfect balance of power and torque. It generates 78kW of power at 3,800 r/min and 247Nm of torque at 1,800 - 2,000 r/min, providing unmatched capability on any terrain. The manual shift-on-the-fly 4WD with high and low ratio, along with the closely matched ratios on the main gearbox enable the driver to maintain headway under most conditions, whilst the mechanical locking differential provides enhanced traction on loose and slippery surfaces without the need for pushbuttons, shift throws or other interventions. The auto-locking hubs disconnect the front axle when not required, reducing wear and tear and increasing fuel efficiency.

The factory-fitted digital immobiliser with encrypted key-recognition system provides individualised security to the Thar.

## **COLOURS AVAILABLE**

RED RAGE DSAT SILVER ROCKY BEIGE

## **SPECIFICATIONS**

ENGINE	
Engine designation	NEF TCI-CRDe
Fuel type	Diesel
Capacity	2,498 cc
Cylinders	4
Bore and stroke	94 x 90 mm
Compression ratio	17.8:1
Induction	Turbocharged with Common Rail Injection
Valve-train	4 Valves per Cylinder
Power	79kW @ 3,800 r/min
Torque	247Nm @ 1,800 ~ 2,000 r/min
Fuel consumption (combined cycle)	8,9I/100 km
TRANSMISSION	
Drive	4WD
Туре	5-speed manual
Low range	Yes
Traction enhancement	Mechanical Locking Differential (MLD) EATON
4WD Hubs	Auto-locking Auto-locking
Shift-on-the-fly from 2WD to 4WD	Yes
CHASSIS AND SUSPENSION	Ladder frame chassis
FRONT	
Type	IFS with Torsion Bar and Stabilizer Bar
Shock absorbers	Hydraulic, dual acting, telescopic
Suspension travel	194 mm
REAR	
Туре	Semi-elliptical Leaf Springs
Shock absorbers	Hydraulic, dual acting, telescopic
BRAKES	
Туре	Dual hydraulic circuit with tandem master cylinder, vacuum assisted servo with auto slack adjuster
Front	226 mm discs
Rear	282 mm drums
DIMENSIONS & CAPACITIES	
Overall length	3,920 mm
Wheelbase	2,430 mm
Overall height	1,930 mm
Overall width	1,726 mm
Track front	1,445 mm
Track rear	1,346 mm
Ground clearance	200 mm
Approach angle	44 deg
Departure angle	27 deg
Breakover angle	15 deg
Wading depth	500 mm
Fuel tank	60 litres
Wheels and tyres	6,5J x 16 steel, full wheel caps, 235/70 R16 tyres
Turning radius	5,75 m
Gross Vehicle Mass (GVM)	2,200 kg
Gross Combination Mass (GCM)	2,950 kg
Tare Mass	1,745 kg
Towing capacity	750 kg
