

MAZDA3 HATCH

NEXT-GENERATION MAZDA3, DRIVING IS BELIEVING

The Next-Generation Mazda3 represents the beginning of a new era for Mazda. A car that takes every element of design, performance and technology beyond anything that's come before. It's a drive you need to feel to believe.

CREATED TO MAKE A
MOMENT LAST

The Mazda3 Hatch is a car designed to catch the eye and heart through its seductive allure. The evolution of Mazda's KODO – Soul of Motion design philosophy see light and shadow shift beautifully across the body. This, combined with the low roofline and wide stance delivers a powerful presence.

BEAUTY BY SUBTRACTION

Every element of the Next-Generation Mazda3 Hatch has been created with the intention to further strengthen the connection between car and driver. A less is more approach has been followed to develop a cabin that's as beautiful as it is functional.

NEW LEVEL OF INTERIOR CRAFTSMANSHIP

Quality is abundant from top to bottom. Beautifully crafted detailing covers key components like the dashboard, centre console and door panelling. While the driver's comfort is elevated with the 10-way power adjustable seat for a grand drive.

INSTINCTIVE TECHNOLOGY

Every piece of driving technology has been honed to provide an unparalleled sense of control and enjoyment. The Head-Up Display has been carefully designed to present only the most relevant information in the simplest fashion. The meter cluster now features a vibrant 7-inch TFT screen. While on the steering wheel, switches are streamlined and better integrated for superior functionality and beauty.

CONNECTED IN EVERY WAY

Enjoy the latest in connectivity with an all-new Mazda Connect system displayed in stunning clarity on the 8.8-inch widescreen display. With Apple CarPlay™ and Android Auto™ as standard, you can access your compatible smartphone's contacts, social media, music and more at the touch of a button.

ENGINEERED TO EXHILARATE

The strict adherence to the philosophy of 'Jinba-Ittai' with the sense of a car and driver as one, has created a driving experience that's truly Next-Generation. The newly developed G-Vectoring Control Plus (GVC Plus) offers unprecedented levels of confidence-inspiring controllability, while Skyactiv-G petrol engines deliver exhilarating performance.

THE EVOLUTION OF SAFETY

True peace of mind is at the forefront of the Next-Generation Mazda3. A higher concentration of ultra-high tensile steel reinforces the chassis, while a newly developed knee airbag for the driver's seat is not only a first for Mazda, but comes as standard equipment. Paired with the latest in safety technology, like Dynamic Stability Control (DSC), every grade of the Next-Generation Mazda3 takes safety to another level.

AN INTUITIVE EXPERIENCE

The Next-Generation Mazda3 consists of intuitive features that transform your drive into a truly effortless one. The headlamp levelling system, which also compliments the vehicle's safety features, adjusts your car load to its height to avoid blinding oncoming traffic, especially in low-lit conditions as well as around curves and over hills.

While Mazda never compromises on style, you can enjoy the sunroof feature with power slide and tilt glass through the city and country roads. Even when stationary, the power fold mirrors will leave an unmissably elegant sight of the Next-Generation Mazda3.

The power fold mirrors are standard from the Dynamic grade. Headlamp levelling is standard on all grades, while the sunroof is an extra detail with exception of the Mazda3 Astina.
