LEAD THE WAY

COROLLA
QUEST

Since its release, the 1.6 Toyota Corolla Quest, just like all the Corollas before it, has been a firm South African favourite. Now with the most recent update, the Corolla Quest is sure to go from strength to strength, with more heart, more space, more safety and more value than you've come to know over the years. With all its updated features, there is no doubt the Corolla Quest is sure to be yet another favourite South African icon.

The Corolla Quest is just as at home in South Africa as you are. With a more comfortable interior and a reliable, fuel-efficient 1.6 litre engine, you can tour the rich landscape and explore the diverse places our beloved country has to offer in true comfort.

MODEL SHOWN 1.6 COROLLA QUEST PLUS

discover new favourite places

Across the scenic landscapes spanning from coast to coast, South Africa is filled with new places waiting to be discovered. From awe-inspiring views along the coastline to breathtaking valleys of lush greenery along majestic mountain curves, the Toyota Corolla Quest takes you on your favourite journeys with every smooth turn.

Fitted with MacPherson front suspension and Torsion Beam rear suspension for superior handling, the Corolla Quest delivers a comfortable and enjoyable drive. The economical 1.6 litre engine delivers on efficiency and performance, and boasts a great fuel consumption figure of 6.9 litres per 100 km, so you can go further for less.*

The 1.6 litre petrol engine puts out an impressive 90 kW of power and 154 Nm of torque. The Corolla Quest is available in either a 6-speed manual transmission or a 4-speed automatic.

MODEL SHOWN 1.6 COROLLA QUEST PLUS

favour comfort

Experience the epitome of style and true comfort in the 1.6 Toyota Corolla Quest. With a fresh face on the iconic look of the Corolla, its modern style flows from the front grille to the rear combination lamps, the black finishes on the headlamps, a black radiator grille and striking dark gunmetal-coloured rear combination lamps, giving the Corolla Quest a more sophisticated appearance.

All models have electrically adjustable mirrors and colour-coded bumpers with colour-coded door handles.

The Corolla Quest Plus model comes standard with 15" alloy wheels, while the Corolla Quest and Corolla Quest AT models are fitted with 15" steel wheels.

MODEL SHOWN 1.6 COROLLA QUEST PLUS

The image is a composite of two photographs. The left side shows the rear passenger area of a car, highlighting the spaciousness and the dark fabric seats. The right side shows the driver's perspective from the front seat, featuring the steering wheel with the Toyota logo, the instrument cluster, the center console with a gear shifter, and the dashboard. The background through the windshield shows a desert landscape with sand dunes under a sunset sky.

your favourite style

With more space for you and your family, the Toyota Corolla Quest offers you exciting road trips to your holiday destinations, in genuine Toyota style.

Designed with comfort in mind, the Corolla Quest has a spacious interior to ensure a supremely comfortable ride for both the driver and their passengers. Now more efficient than ever, the Corolla Quest also comes standard with air conditioning and electric front and rear windows on all models, for a cool and comfortable drive.

While quality was a priority when developing the Corolla Quest, we didn't forget about functionality. The Multi-Information Display cluster provides all the important information and metrics needed for an easy and safe drive. The Corolla Quest Plus model also comes standard with a radio and CD player with four speakers, auxiliary and USB inputs to keep you entertained, as well as Bluetooth functionality for your convenience.

But the Corolla Quest is not just spacious for you - there is also lots of extra storage space. You'll find door pockets in the front and rear, as well as a bin-type glove box, console box with a lid and a luggage capacity of 450 litres - perfect for storing all the necessities you'll need on your road trips.

INTERIORS SHOWN 1.6 COROLLA QUEST PLUS

Corolla is synonymous with safety and reliability, and the Corolla Quest is no exception. Each model comes standard with driver and front passenger airbags to keep you and your passengers protected on the road, wherever your journey may take you.

Electronic Brake-force Distribution (EBD) minimises stopping distances by shifting more braking pressure to the wheels with the most grip, keeping the Corolla Quest stable and balanced whenever brakes are applied.

The Anti-lock Braking System (ABS) monitors the speed of each wheel to detect locking, releases braking pressure and provides optimum braking pressure to each wheel, improving steering control during sudden stops.

Brake Assist System (BAS) detects attempted panic stops and supports you by strengthening braking power. This helps you apply your brakes safely in case of an emergency.

We've also considered security features: models are fitted with an immobiliser and an alarm, as well as remote control central locking. Child protection locks on rear doors and ISO-FIX seatbelt anchors are fitted to ensure your precious cargo stays safe and sound on your journeys.

favourite**

Toyota's vision of sustainable mobility is ingrained and honoured at all levels. The introduction of a company-wide Environmental Management System (EMS) ensures this. EMS guarantees constant progress at Toyota world-wide, as it not only allows for efforts such as measuring the environmental impact of our vehicles over entire life cycles, but has also driven the radical reduction of the environmental impact at our manufacturing plant, and along our entire supply chain.

Any current negative impact is being addressed through the comprehensive Toyota Environmental Action Plan, known as the ECO-Project. This encompasses all areas of Toyota's operations from the design of new vehicles and manufacturing processes, to the use of materials and end-of-life recycling programmes. Thanks to a philosophy of continuous improvement and the quest for zero emissions, Toyota's new generation engines are cleaner-burning than ever with dramatically reduced exhaust emissions.
